As a result, we can each Make conscious choices and live our lives unrestricted by the authority of others. We can each step away from the structure of corporate rule and its inherent destructiveness, and move toward systems of governance in which freedom, co-creativity, personal responsibility and accountability are valued. For the first time ever, we are no longer commercial commodities or slaves to an oligarchy that was created by the deception and manipulation of its elite beneficiaries. In due course, the community's enforcement of the repossession order will see the resources and infrastructures that were controlled by our former masters reformed to truly serve the people. Our time of obedience to any and all "authority" is over. The use of force, duress and control over any and all peoples is over. No Being has the lawful right to impede anothers experience of the abundance of creation. That is now law. So it is with great relief that I share this with you today together, we can finally end this cruel parody of governance. It has taken a personal toll on me, and it has no doubt taken a great toll on you too.. But you, just like the rest of us, will benefit immensely from this historic change. And from one being to another, I encourage you to embrace it. There are moments in our lives, when we have to make the biggest of all choices; choices that will change the rest of our lives, and the lives of others. That moment is upon us. It is upon you. We have the courage, knowledge, compassion and understanding to make historic and wondrous changes to the way we live on earth, and the time for us to act is now. I invite you to join me and millions of others like me on this path of love, compassion, freedom, abundance and endless co-creation. We are entering a new-era of human existense. And the enactment of the one people s public Trust has ratified it in perpetuity. Accordingly, you have a choice to make. As do we all. This new paradigm shift affects you and I equally. So I encourage you to ask yourself:

Did I truly join politics to serve corporate interests?
Do I believe each human being is entitled to live abundantly and free?
Am I prepared to continue serving the interests of former corporations in total transparency and full personal liability?
What do I truly want our world to look like?

From this moment onward, your actions, as well as the actions of every human being alive on this planet, will carry with them 'complete personal responsibility and liability'. And although the corporate government who previously employed you has been lawfully forclosed, you hold →

We can peacefully exit the systems of slavery imposed on us, and bring an end to the systemic pain and suffering of billions of our brothers and sisters. Our newly ratified framework of governance ensures that every entity on the planet is accorded respect, love and compassion, and that systems of inequity, harm and hardship can never again be created. It also ensures that each individual now stands in full liability of their own actions and creations, without company policy or the protections of corporate liability to hide behind.

(*This is the beginning of a new social paradigm shift.*)

The reality is that only a select few truly benefited from the old system of systemic control, debt, poverty and resource wars. The establishment of corporate government bodies underhandedly removed our freedom of choice. And the acts of its agents and its buisness partners all perpetrated under the guises of "governance" and "progress" have had terrible and dramatic impacts on our planet and the fabric of our societies.* At no time did we, The one people, give our knowing and willing consent to:* The gradual erosion of our rights and freedoms under corporate rule. Governments holding the level of power and control that has been exerted over us. Every aspect of our lives coming under the scrutiny of corporate government. Laws being implemented that are in contradiction of our constitution. Being treated as a financial commodity rather than as a living, breathing human being. The devastation of our planet and its resources to satisfy corporate greed. Being viewed as less than the powers that were. But while our freedoms were appropriated by corporate rule, that is exactly what happened. By now, it must be obvious to you and others in the corporate government structure that we, The one people, are no longer receptive to the former systems of control. We understand that the recent UCC filings proved these mechanisms to meet the lawful definition of slavery. And we understand that we have other options.

transparent existense is intolerable. And now it is unlawful. So in an attempt to bridge the gap of silence, I present today an open letter to: Charles R. Norgle

Dear Charles, I am writing this letter to you with truth in my heart and the utmost respect for your being.

I am writing to inform you of a very pressing issue; an issue that touches every human being on this planet. I urge you to read this correspondence and seek legal advice on what this actually means to the structure of our society and how we will live our lives from today onward.

* ON DECEMBER 25TH, 2012 THE WORLD CHANGED. *

After several years of legal investigations, a complex series of ucc filings and extensive processes of legal notification, the world s corporate entities were forclosed and duly notified of such by the ones people s public Trust (OPPT). The ucc filings claimed that the former corporate system (including the united States of America corporation) operated slavery and private money systems, and left unrebutted, the filings were entered into law. As remedy, the funds and resources that were accumlated by those corporate entities are now repossessed for the use of humanity. Since december, Millions of people around the world have become aware of this, and all of us including you brother Charles stand to benefit.

I respectfully request that you carefully read these documents and become acquainted with their authenticity and lawful standing. The full Public record of these filings can be found at http:// peoplestrust1776.org. go ask a commercial lawyer or Zagel, castillo, Brian Hayes either one then you will surely grasp the complexity and gravity of these filings, but I encourage you to contact the trustees via the contact option on the above-mentioned website if you require clarification. In short, the people of the world now have lawful equity in the worlds resources and a permanent legal standing that enables us to reject the system of corporate slavery that has been imposed upon us. And as a result, we the one people finally get to dream the dream and built the kind of world we want to leave for future generations, with pride and a true sense of accomplishment.

An Eternal Essence Being of the creator God-Source of all that is love, light, Truth

* (Introduction) *

On 25th December 2012 the trustees of the one people s public Trust announced the conclusion of a series of ucc filings which ordered the forclosure of corporations and corporate - governments, and the repossession of their assets. Now, over 8 months later, the ucc filings remain unrebutted and more importantly totally unacknowledged by the former governments they terminated. It s a predictable response. But it is not acceptable for two reasons. Firstly, in a genuine democracy, silence is an inadequate answer of government to reasonable questions of its legitimacy. The role of a true democratic government is to serve its people with full accountability to its people. But as the OPPT discussion continues to unfold around the world, our former corporate governments remain silent, going about **their** "buisness" as though nothing has changed.

In essence, the facade of democracy is over. They are still claiming the rights and authority of former government, but have openly disregarded their responsibilities as public servants to the "democracies" they claim to represent. And by doing so, they continue to obstruct the free-will rights of other beings.

Secondly, Members of visible (former) governments were never "in charge" of the system, they were effectively "Middle Management." Although some may have been knowingly complicit, they are ultimately employees and not the beneficiaries of the former corporate government structure. Their continued public pretense to government status just demonstrates that the control and duress exerted on them by their corporate bosses still continues today.

Whether you were a "ground-level" slave or "**middle Management**" to the system, **We were** all mistreated by the former structure. **We all played our roles.** And a system that robs any being of their right to a free, unencumbered and →→
